## OUTPUT AT SOKOR GOLD FIELD EXCEEDS 100,000 OUNCES, SURPASSING INITIAL ORE RESERVES ESTIMATE<sup>1</sup>

---

The board of directors (the “**Board**”) of CNMC Goldmine Holdings Limited (the “**Company**” or “**CNMC**”, and together with its subsidiaries, the “**Group**”) is pleased to announce that the Company’s flagship Sokor gold field project (“**Sokor**”) in Malaysia’s Kelantan State has to date produced more than 100,000 ounces of fine gold (99.99% gold content) since it commenced production in 2010.

The achievement is a major milestone for the Company, which started exploration work at Sokor in 2007 and achieved its first gold pour in July 2010. The output of more than 100,000 ounces of fine gold surpassed the initial reserves estimate of 70,300 ounces of gold ore reserves indicated in the Independent Technical Review Report issued on 12 August 2011 as part of the Company’s initial public offering prospectus.

Output at Sokor reached 31,206 ounces of fine gold in 2015, the highest in any given year since it began production.

### By Order of the Board

Lim Kuoh Yang
